

BaseContext

```
classDiagram
    class BaseContext
    class UserManualInputContext
    UserManualInputContext --|> BaseContext
```

A UML class diagram illustrating inheritance. At the top is a white rectangular box labeled 'BaseContext'. Below it is a gray rectangular box labeled 'UserManualInputContext'. A solid blue arrow points vertically from the top center of the 'UserManualInputContext' box to the bottom center of the 'BaseContext' box, indicating that 'UserManualInputContext' inherits from 'BaseContext'.

UserManualInputContext
